2. Hazards Classification, Hazard Statements and Precautionary Statements

Hazard category... GHS07—Low Level Toxicity For Ingredient D'Limone <1%

Potential issues..... Respiratory, skin, & eye irritation, skin sensitisers & chemicals harmful if swallowed, inhaled or in contact with skin

Risk phases..... R41,R66,R36/38, Risk of serious damage to eyes, repeated exposure may cause skin dryness or cracking, irritating to eyes & skin

Safety phase..... S23, S26, S28, S36, S38, S24/25, S37/39. Do not breath vapours or mists, in case of contact with eyes, rinse immediately with plenty of water and contact a doctor or poisons information centre. After contact with skin, wash immediately with plenty of water, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment, avoid contact with skin and eyes, wear suitable clothes and eye/face protection

GHS Signal Word. Warning

Hazard Statement...AUH066: Repeated exposure may cause skin dryness of cracking

H315: Causes skin irritation

H319: Causes serious eye irritation

H335: May cause respiratory irritation

Prevention P102: KEEP OUT OF REACH OF CHILDREN

P261: Avoid Breathing fumes, mists, vapours or spray

P264: Wash contacted areas thoroughly after handling

P271: Use only Outdoors or in a well ventilated area

P280: Wear Protective gloves, protective clothing & eye or face protection

Response P312: Call a poison centre or doctor if you feel unwell

P362: Take off contaminated clothing and wash before reuse

P301+P330+P331: If swallowed: rinse mouth, do not induce vomiting

P302+P352: If on : wash with plenty of soap and water

P304+P340: If inhaled: remove victim to fresh air and keep at rest in a position comfortable for breathing

P305+P351+P338: If in eyes: rinse cautiously with water for several minutes, remove contact lenses, if present & easy to do. Continue rinsing

P332+P313: If skin irritation occurs: get medical advice

P337+P313: If eye irritation persists: get medical advice

P391: Collect spillage

P370+P378: Not combustible, use extinguishing media suited to burning materials

Storage: P403+P233: Store in a well-ventilated place, keep container tightly closed

Disposal: P501: Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service,

3. Composition and Ingredient Information

Description	A concentrated inorganic colloidal suspension of amphoteric surfactants, alcohol and organic terpenes
Appearance	A milky liquid with a natural fragrance
Chemical composition	Organic Terpene hydrocarbons, hydroxide solution <0.01% , acid solution <0.01%, alcohol amphoteric surfactants D'Limone <1%
UN Number	Not applicable
Dangerous Goods Class	Not applicable
Subsidiary Risk	Not applicable
Packing Group	Not applicable
Hazchem Code	Not applicable

4. First Aid Measures

General Information

No special measures required

Skin Contact... Irrigate thoroughly with cold water. Seek medical attention if symptoms persist

Eye contact... Irrigate thoroughly with cold water keeping eyelids open to ensure effective washing Seek medical attention if symptoms persist

Inhalation... Remove person to fresh air, loosen clothing and seek expert help.

Ingestion... *Small amounts:* wash mouth out with water and give lots of water to drink. *If large amounts* ingested medical advise should be sort

5. Fire Fighting Methods	6. Accidental Release Measures	7. Handling and Storage
---------------------------------	---------------------------------------	--------------------------------

Lower explosive limit...
Not Applicable

Basic fire fighting guidance...
May present a slip hazard

Anticipated hazardous product of combustion... Not applicable

Extinguishing media...
Use extinguisher to suit the cause of fire

Wear suitable protective clothing against nuisance moisture....

Sweep or vacuum spilled product and dispose in accordance with Local Authority Regulations...

Product is slippery

External damage to bottles should be avoided.....

Keep bottles closed at all times when not in use

Check regularly for leaks....

Keep in cool dry place . Ensure good stock rotation . No special transport handling required

8. Exposure Controls/Personal Protection	Date of issue: September 2021
---	--------------------------------------

Hand protection..... No special requirement . Use protective PVC or rubber gloves if sensitive skin.

Skin protection..... Normal work wear. For sensitive skin supplement by barrier cream

Eye protection..... No special requirement. Wear approved goggles for nuisance spillages.

Respiratory Protection. Refer section 3 safely phase. Use approved dust mask if occupational exposure limits cannot be met by ventilation

Occupational Exposure limits Not normally a hazard due to the non-volatile nature of the product. The vapour or mist could be irritating

Environmental impact..... There are no reported ecotoxicity for this product. Readily Bio-degradable according to Australian standards AS4351

9. Physical and Chemical Properties	10. Stability and Reactivity	11. Toxicology Information
-------------------------------------	------------------------------	----------------------------

Appearance.....Milky coloured liquid
Odour..... Citrus
PH.....7.5-9.5
Solubility in water.... Soluble

Boiling point, Melting point, Flash point, Ignition temperature, Vapour pressure, Density and Solubility are not relevant to safety

This product is stable under normal conditions of use.
Conditions to avoid..... None
Materials to avoid..... Rubber
Hazardous Decomposition products..... None

Inhalation of aerosols or dust resulting from inappropriate handling may induce sensitization and may cause allergic reactions in sensitized individuals. Prolonged skin contact may cause minor irritation this preparation is non-toxic

12. Ecological Information	13. Disposal Considerations	14. Transport Information
----------------------------	-----------------------------	---------------------------

Ecotoxicity

Fish.....
 Low toxicity: LC/EC/IC50>100mg/l
Aquatic Invertebrate.....
 Low toxicity; LC/EC/IC50>1000mg/l
Algae.....
 Expected to have low toxicity: LC/EC/IC50>1000mg/l
Micro-organisms....Low toxicity: LC/EC/C50>1000mg/l
 Which classifies the preparation as non-dangerous to the environment
 The preparation is Bio-degradable

No special disposal method required, except that in accordance with current local authority regulations

There are no specific transportation pre-cautions required. This product is not classified as a dangerous substance under the classification, packaging and labeling of dangerous substances regulations

15. Regulatory Information	16. Other information
----------------------------	-----------------------

Dangerous Substances Directive 67/548 /EEC and Dangerous Preparations Directive 1999/45/EC:

These regulations do not apply to this product and therefore the product does not to labeled in accordance with EC laws

Information on label... **S51** Use only in well ventilated areas
S26 In case of contact with eyes rinse immediately with plenty of water and seek medical advise
R43 May cause sensitization by skin contact

Recommended restrictions on use:..... Not Known

The information contained in this product Material safety Data Sheet , as of the issue date, is to be true and correct. However, the accuracy or completeness of this information and any recommendations or suggestions are made without warranty or guarantee. Since the conditions of use are beyond the control of our company, it is the responsibility of the user to determine the conditions of safe use of this preparation. The information in this sheet does not represent analytical specifications.
